

Animals at the Rosamond Gifford Zoo at Burnet Park

As of 6/6/08

Please note: This list of zoo animals is dynamic and subject to change at any time. Some of the animals listed below may not be on exhibit.

Species Survival Plans (SSP's) are cooperative breeding and conservation programs in which participating zoos and aquariums agree to manage and exchange their animals in the best interests of the species. SSP's are managed by the American Zoo & Aquarium Association (AZA) of which the Rosamond Gifford Zoo is a member.
